

TVM-360 Cashless

Ticket Vending Machine

TVM-360 Cashless

Based on its long experience on designing and manufacturing quality Ticket Vending Machines, AMCO presents the new TVM-360 Cashless ideal for stationary use at bus stops, metro stations, tramway platforms or any additional project that requires an automated ticket selling point.

«TVM-360 Cashless empowers contactless payment with EC / credit card and mobile phone». It has been designed to enhance the best possible access to local public transport networks, making them even more viable to people with varying capabilities, in different situations, without any additional engineering or adjustments.

Due to its specialized design, TVM-360 Cashless can cope in all type of climates, providing proper and uninterrupted operation under harsh circumstances with extremely high or low temperatures and / or humidity and dust. In addition, AMCO has created an easy to use interface, that allows passengers to conduct the purchase of their needs with efficiency and security.

Key Features

- Attractive and robust design
- Modular device (Options for different kinds of tickets)
- Reliable in all climates
- Sunlight readable touch TFT color display from 15" to 24" based on operators needs
- Payment: Contact and contactless Debit/ Credit cards
- Scanner for processing of barcode (QR) tickets
- 2 Options for tickets issueing – Smart tickets (RFID) and simple paper tickets
- Up to 2 rolls for tickets or paper smart cards
- Receipt printer
- Low maintenance and service-friendly thanks to modular construction
- Real-time alarm notifications and transactions data transfer to central office

TECHNICAL SPECIFICATIONS

Processing Unit

Industrial PC
Embedded Linux operating system (Windows is optional).

Display

Anti-vandal projected capacitive touch panel protected by 6mm UV/IR filtering glass.
Sunlight readable (1600 nits) displays options: 15", 17", 18.5", 23.8"

Electronic Ticketing

- Issuing and Topping up:
- Smart card reader supporting ISO/IEC 14443 Type A and B A SAM sockets for ID000 format, support for MIFARE classic, MIFARE DESFire, MIFARE Pro, MIFARE Plus, MIFARE Ultralight, Calypso, NFC.
 - Scanner for processing of barcode tickets

Bank Cards Payment

Payment terminal with 16-Key keypad for processing debit/credit Contac/contactless Cards, EMV Level 1, EMV Level 2, certificated application.

Communications

LAN Ethernet 10/100 Mbit.
Optional WLAN, GSM, GPRS, EDGE, UMTS, LTE.

Environment

Operating temperature: -10°C to +50°C
Storage temperature: -30°C to +65°C
Humidity: 15% to 95% non-condensing

Power Supply

230 VAC integrated UPS

Housing

Material: Stainless steel 1.5 mm
Protection IP44
Dimensions: Height 1700mm, Width 500mm (600 with footing), Depth 400mm
Weight approx. 140kg

Compliance

CE, EN 14450, EN 1300, EN 62262 - IK9, EN 60529

Extras

Audio announcement, surveillance camera.
